

The education project will help Four Winds to

Grow & Flourish

because it will allow us to engage...

Four Winds
FESTIVAL

2 professional music teachers who will mentor...

4 generalist teachers...

in 6 local primary schools and...

reach 113 primary students this year alone

Please help us to redress the balance.

Our local kids are missing out on the many benefits of music education in school.

Currently there are just 3 casual music teachers (only one is professionally trained) for the 853 students in the six participating schools.

Music education uniquely contributes to the emotional, physical, social and cognitive growth of all students

- National Review of School Music Education, Australia, 2005
